Do you keep thinking you should be looking into Long Term Care Insurance? But, it seems that every policy is different and you have a myriad of questions. Plus, you're not there yet. You think you always have time to look into that somewhere in the future. Come hear from an expert from the Kansas Insurance Department. This is not someone trying to make a commission. No heavy-handed sales pitch. Find out what features a good long term care insurance policy should have and if it's right for you.

Ten thousand boomers turn 65 every day this year and become eligible for Medicare. Some already qualify due to disability. Do you understand Medicare and what it provides? If not for you, what about your spouse or your parents? Are they already on Medicare and you're not sure you understand their coverage? Why does it seem their doctor's bills are so complicated? And, what happens when they get frail and need assistance? Will Medicare provide the care they need?

Quit putting off investigating these two important issues. It's never too early to plan for your future or get the important facts that will affect you and your family's physical and financial health.
